

# 2006 Fire Muster competitions get fierce

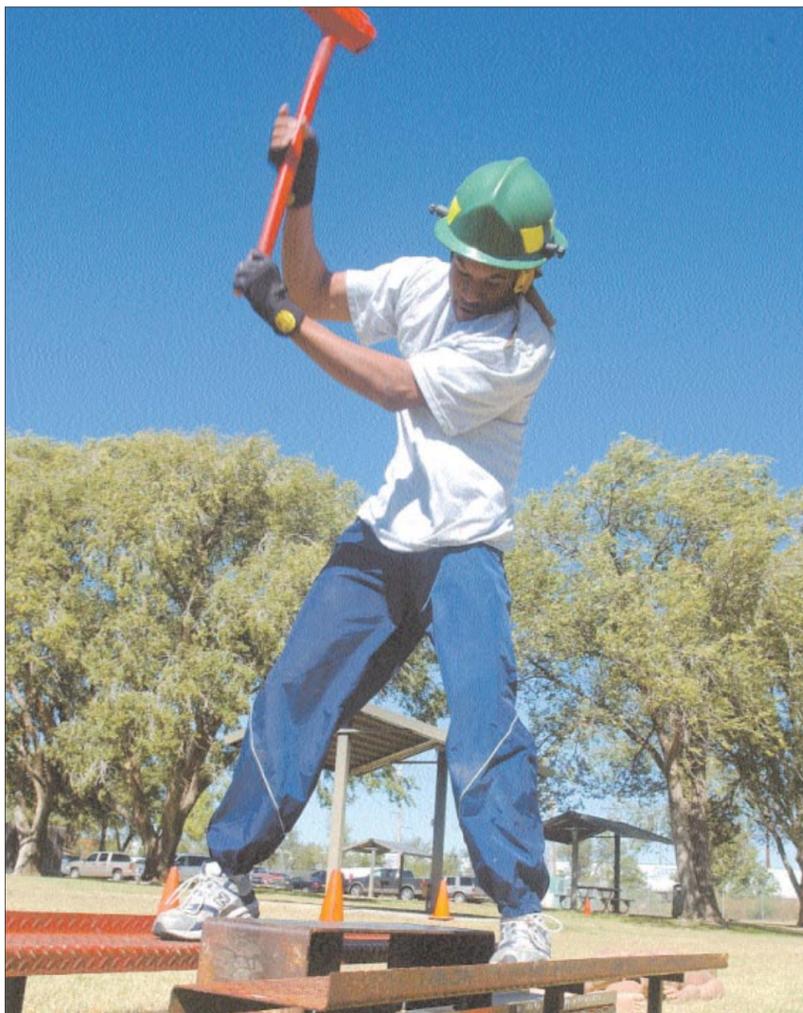

PHOTO BY AIRMAN ERIK CARDENAS

Squadrons from across the base formed teams to compete in the 2006 Fire Muster Oct. 13 at Unity Park. The Airman above is competing in the obstacle course.

Left: Tech. Sgt. Lorenzo Trotter, 27th Communications Squadron, dons a full fire fighter ensemble as part of the Obstacle Course. The course included items such as a bucket lift, tunnel crawl and ended with a dash for the finish line.

Right: One sole part of the competition was the truck pull. The 27th CS strategy included pulling from as close to the truck as they could. The communications squadron took first place in the overall fire muster competition. Coming in second was the 27th Comptroller Squadron, followed by the 27th Logistics Readiness Squadron in third.

Left: Sparky, a Cannon Fire Fighter, kept the Fire Prevention Week festivities going by doing a live appearance at the base exchange Saturday. While there, he met with junior fire detector Thomas Cluverius, 2, and his mother Laura about fire safety at home. Thomas' dad, Tech. Sgt. Michael Cluverius, is deployed to Balad Air Base, Iraq, from the 27th Equipment Maintenance Squadron. Right: The dummy drag took place in the middle of the Obstacle Course. Racers had to pick up the dummy, run down the course, climb through a window and to the bucket lift. Some teams simply threw the dummy through the window in an attempt to waste less time.
