

Cannon AFB Economic Impact

The Economic Impact Statement provides the public with key unclassified information about the resources and economic impact of Cannon Air Force Base on the surrounding community.

The installation's economic impact on the local community is calculated from local area spending based on budgetary expenditures.

This document is available to senior military officials, federal, state and local officials, business leaders, and visitors to the base.

This document was prepared by the 27th Special Operations Comptroller Squadron in accordance with AFMAN 65-506 and incorporates inputs from numerous sources, including on-base activities, other governmental agencies (federal, state, and local), and the local community. To the best of our knowledge, the facts and figures contained throughout are accurate at the time of publishing. However, approximations were used in some instances to ensure operational security. Also, where data was not readily available, estimates were used to reflect the general level of activity. These estimates and approximations do not diminish the accuracy of this report nor the base's impact on the surrounding communities.
